

# Plant Exchange Update

## April 2026

The NOPS Annual Plant Exchange returns on Sunday, May 17, 2026. Again it will be held at the Dunham Tavern and Museum

In preparation for the Exchange, it's time to start digging up and potting the plants for the plant exchange. Please remember: ONLY perennials and non-invasive plants will be accepted. Woody-stemmed bushes which maintain branches year round are not part of the Exchange. Invasive plants are not permitted.

Please know that members and their guests do not need to bring any plants. Tickets are on sale at the event to acquire plants. One ticket costs \$2, which would buy an average perennial. (Where can you get a beautiful perennial for \$2?)

Last year the raffle table had over 30 beautiful plants and gifts from area nurseries and garden stores. These went home with the lucky winners. The raffle is free to enter.

NOPS member Stanley Way again will serve as the chair of the Plant Exchange Please send your questions to him at [2026NOPS@gmail.com](mailto:2026NOPS@gmail.com) with the subject line, "Plant Exchange."

It is a great time to join NOPS! The Plant Exchange is not to be missed.

The membership form is [here.](#)

We hope to see you there!
